

## Purehold LEVER Handle Cover

**A self-cleaning, antibacterial door handle cover, specifically designed for lever handles.**

Using silver technology, the coating combats pathogens deposited onto the surface by users and then works continuously, 24/7. Aimed at reducing cross-contamination from one user to the next, the Purehold LEVER is easily installed onto lever handles by simply "snapping" into place in under 30 seconds. It's perfect for all lever handle doors!

### Benefits

- Proven in the lab to kill 99.9%<sup>1</sup> of bacteria, using silver technology embedded into handle surface (independently tested to ISO 22196).
- Proven in the field to be 96.4%<sup>2</sup> cleaner than standard door handles (independently tested).
- Simply clipped over existing lever door handles, the Purehold LEVER can be fitted in less than 30 seconds and requires no tools or experience.
- No chemicals or poisons – simply harmless silver ions.
- Can help improve hygiene and reduce costly staff sickness & disruption - The annual cost of a handle is less than the cost of even a single days' basic salary at the Minimum Wage Rate.
- Shelf life of 6 months, with timestrip indicator to prompt replacement when needed.
- Extremely robust and sturdy, with no maintenance required.
- Stylish look to complement your existing door handles.
- Available in blue or black.

### How it Works

It's as simple as 1,2,3:

1. Microbes are deposited onto the door handle by users.
2. Silver ions (Ag) penetrate the cell membrane of the microbe.
3. The ions suffocate the microbe and attack its DNA to prevent reproduction.

## Testing

**Lab Test:** ISO 22196:2011 (measure of antibacterial activity on plastics and other surfaces). Coating was shown to:

- Kill 99.99% of E-coli
- Kill 99.99% of Staph Aureus
- Kill 98.6% of Salmonella

### Field Trials:

- 3 door locations selected (Male toilet, female toilet and busy canteen)
- Stainless steel door handles provided benchmark
- 2 swabs taken from each door handle trialled
- 3 separate field trials undertaken
- Purehold Antibacterial coating showed to be 96.4% (on average) cleaner than stainless steel

## Fitting

The Purehold LEVER will fit most lever door handles around the world. However, there are two variations of the Purehold LEVER to choose from :

- 'Straight' lever handles
- 'Return To Door' ('RTD') lever handles.

Please identify which type of door handles you have at your site (i.e. Straight or RTD) and then order the appropriate Purehold LEVER.

**Straight Handle**

**Return To Door (RTD) Handle**
